

Digital POWER Sound Module for MINI Hatch

We're pleased to announce the release of a retrofit Digital POWER Sound Module for MINI (**Hatch only**).

This is a completely new audio system, which has been developed exclusively for MINI. The system gives excellent sound quality and a power output of 680 watts and 128 decibels!

-
- First full range digital amplifier
- High class speaker system (coaxial 6 x 9")
- DSP switch for 3D surround sound

	Standard	Harmon Kardon	Power Boost
Amplifier	80 Watts	320 Watts	680 Watts
Music Power	145 Watts	480 Watts	540 Watts
Level	98 Decibels	101 Decibels	128 Decibels

The system can only be used in conjunction with MINI Radio boost, but benefits from being totally covert and installation is possible without the need for any metal refabrication work to MINI.
