

MINI Product Planning and Strategy Dealer Bulletin

Model Year 2005 Ordering Guide and Pricing Updates

In an effort to continue to offer the best possible combinations of options for the MINI, we have updated the MY05 ordering guide and Pricing Sheets. The updated versions are now available on **MINIDealerNet.com**. Specific changes include:

1. **Lapis Blue (T6LP)**- Black/lapis blue interior has been corrected to **LAPIS BLUE**. This color seat comes with a lapis blue seat panel and black bolsters. Interior carpet and floor mats are in Lapis Blue. Other interior panels are black.
2. **16" V-Spoke (All-Season) (385)**- The description, 16" X-Spoke (All-Season) has been corrected to **16" V-SPOKE (ALL-SEASON)**. This has also been changed on the Pricing Sheets.

Furthermore, there have been a few questions concerning some options. We hope the following descriptions clarify things a bit.

1. **Anthracite Headliner (4AA)**- This option includes the A, B and C pillar casings, the headliner, all sun visors, all grab handles and the housings and switches for the internal lights.
2. **Cockpit Chrono Pack (547)**- This pack includes the on-board computer (550) for a retail cost of \$250.
3. **3-Spoke Sport Leather Steering Wheel (255)**- This wheel is standard on all cars. Cruise Control w/Multi-Function Steering Wheel (249) is essentially the same wheel but with multi-function capability and cruise control added. The two-spoke wheel standard on 04MY vehicles is no longer available.
4. **T3CB Cordoba Beige Leather**- Through a systems issue with AG, this fabric may have previously appeared to be available on STANDARD seats in the ordering system. We have corrected this and now T3CB can only be ordered with Sport Seats (481). **IT IS NOT AVAILABLE ON STANDARD SEATS**. Any orders previously submitted without 481 have been corrected to include Sport Seats.

MY05 Ordering Guides, Pricing Sheets and product updates are available on **MINIDealerNet.com**.
